P.O. 134127 production specs as per discussions with Gary Gibson at Perfect Circle:

1. PepperBall projectiles will be similar to "Type C" () design concept, powder filled, but without ballast weight.
2. As per Perfect Circle quote (), PepperBall projectiles will be volume filled to at least 75% full or better with inert or OC powder.
3. Jaycor will supply inert and OC powder fill materials to Perfect Circle.
4. Frangible plastic spheres will be 0.68" nominal outside diameter.
(Not measured across the polar dimples.)
5. Equatorial ultrasonic welds will be as flush as possible.
6. Projectiles will match color samples sent by Jaycor:
 - The 10,000 inert powder training projectiles will be transparent "blue" in color.
 - The 5,000 active powder OC projectiles will be transparent "red" in color.
